

# POWERING THE GEARS OF BUSINESS GROWTH

Profitability

Customer Management

Team Management

Streamlined Word Process

Client Mobil App

Inventory Bar Coding

Advanced Analytics

“The streamlined work flow has allowed us to be way more productive and has saved us a ton of time that we can now allocate to our clients and services. Hands down, this software is the best choice for service based businesses!”

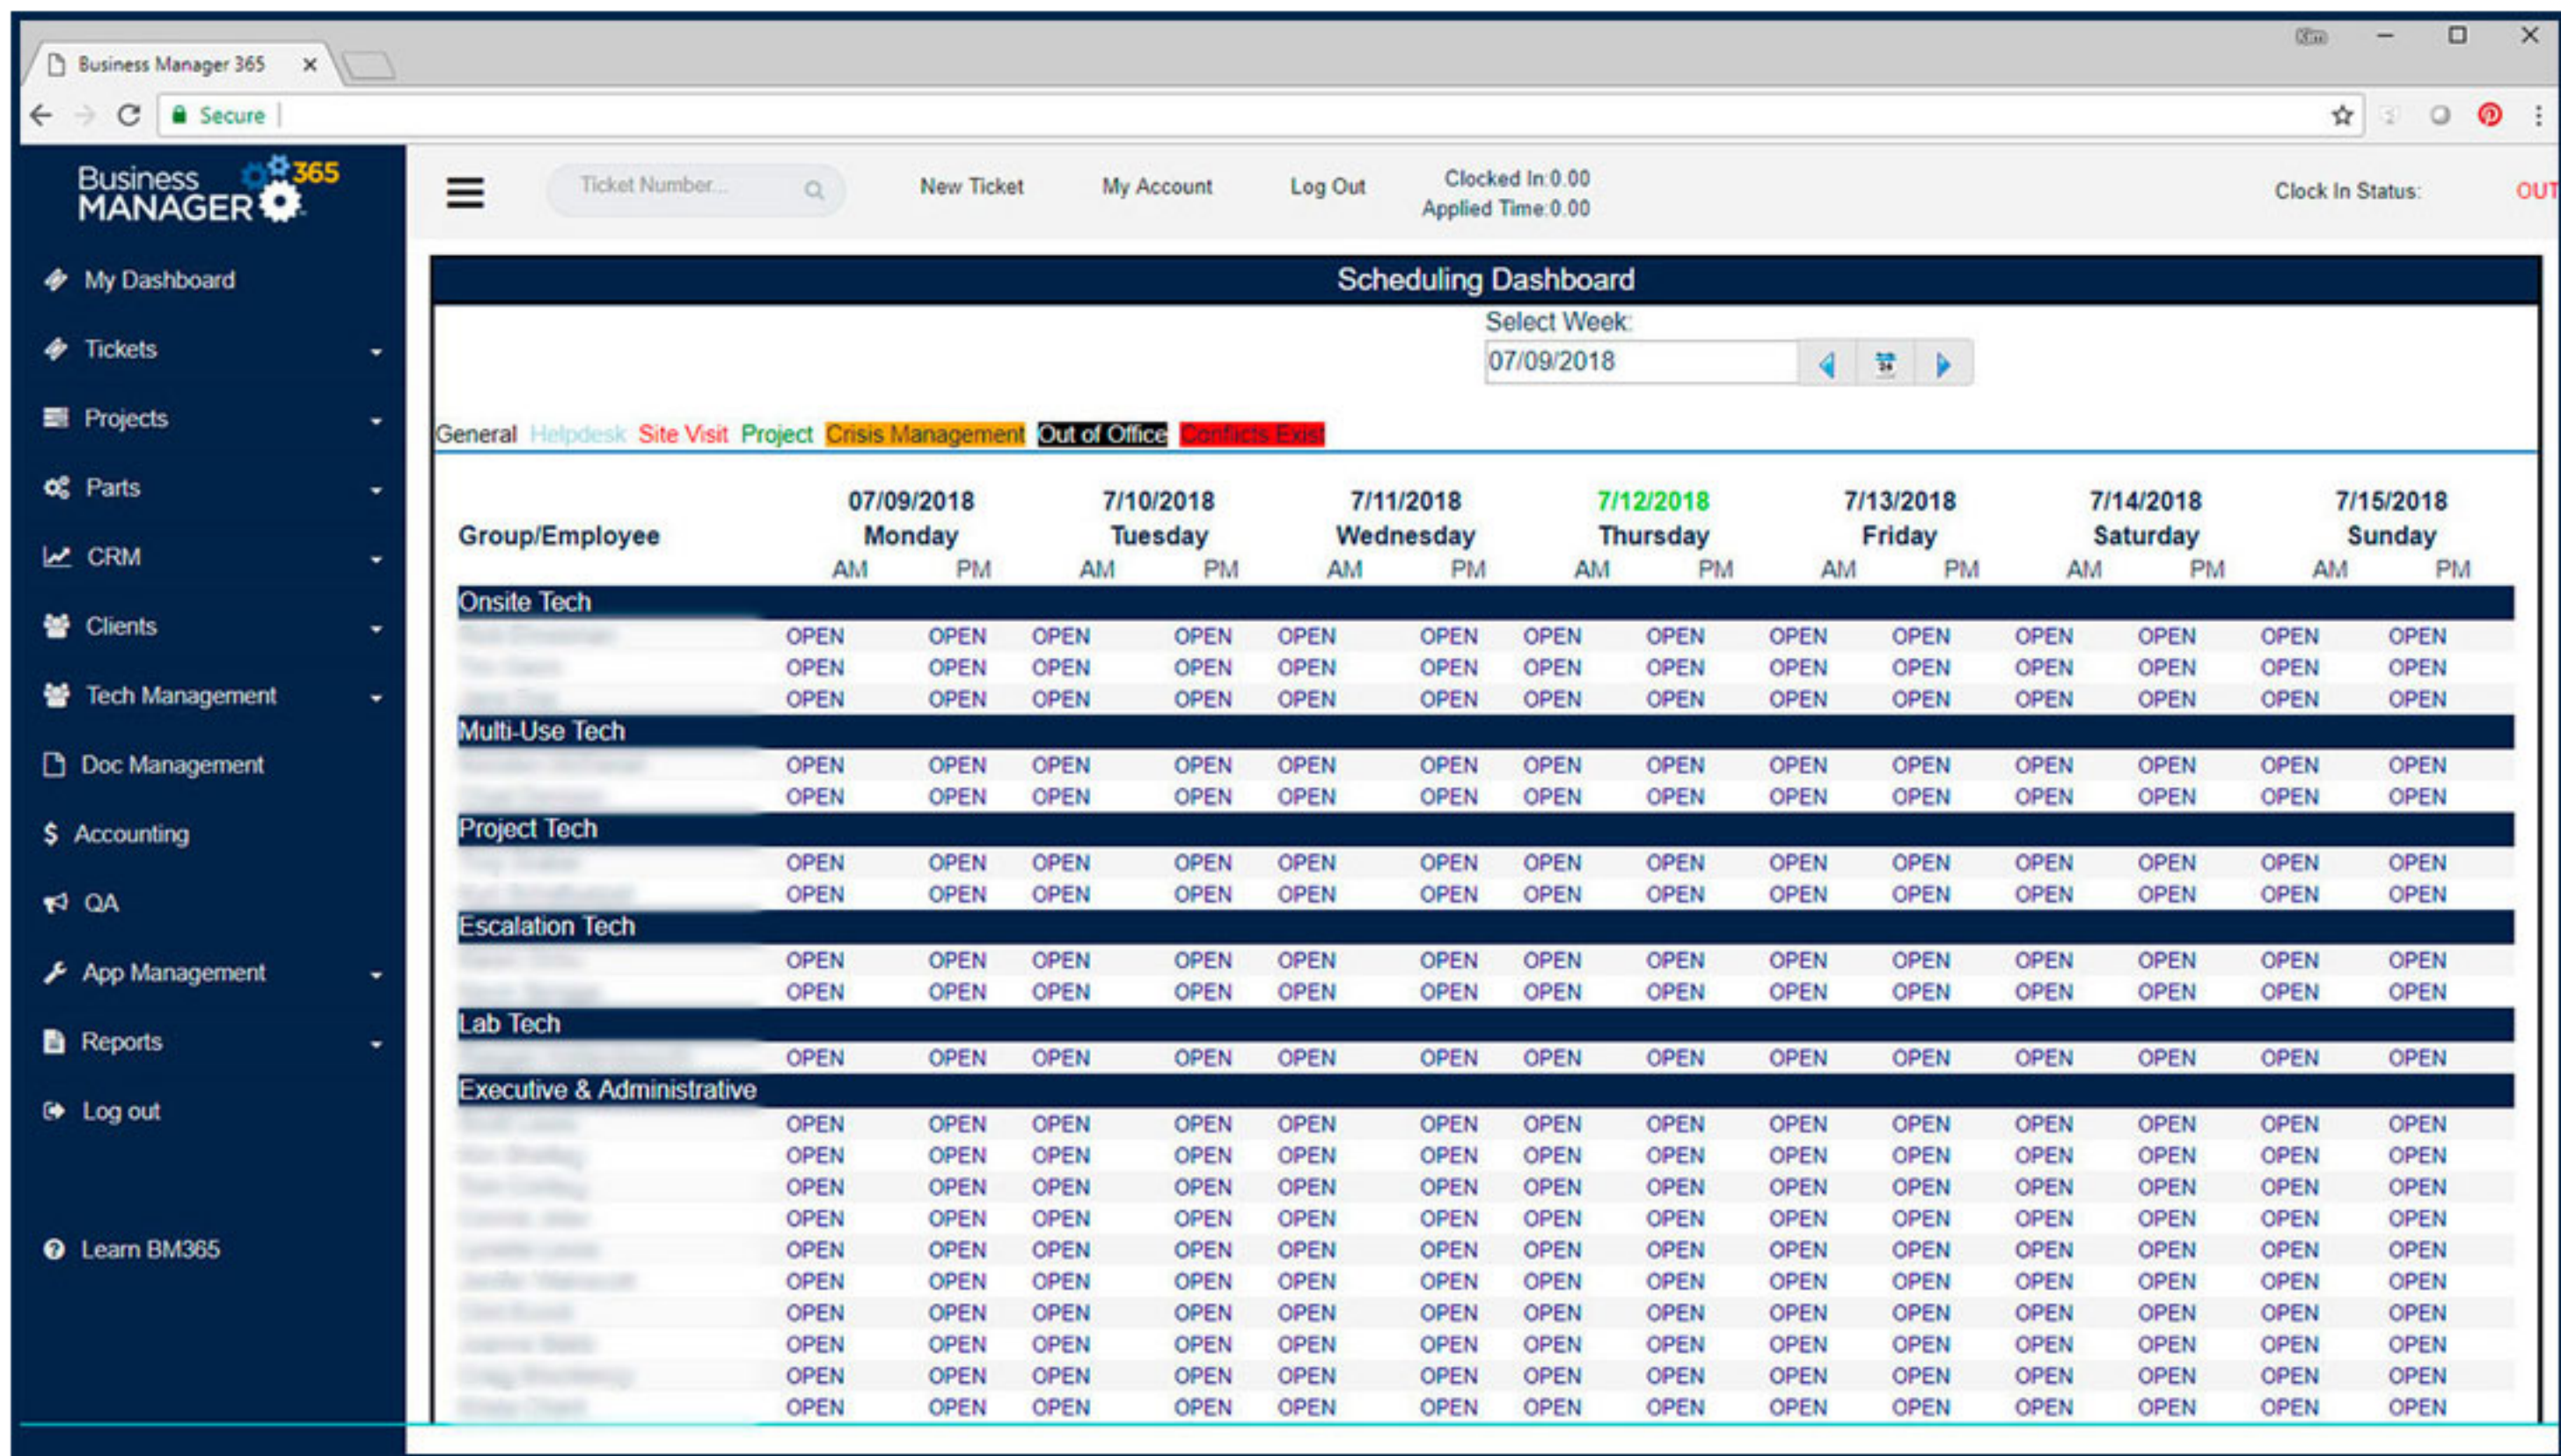

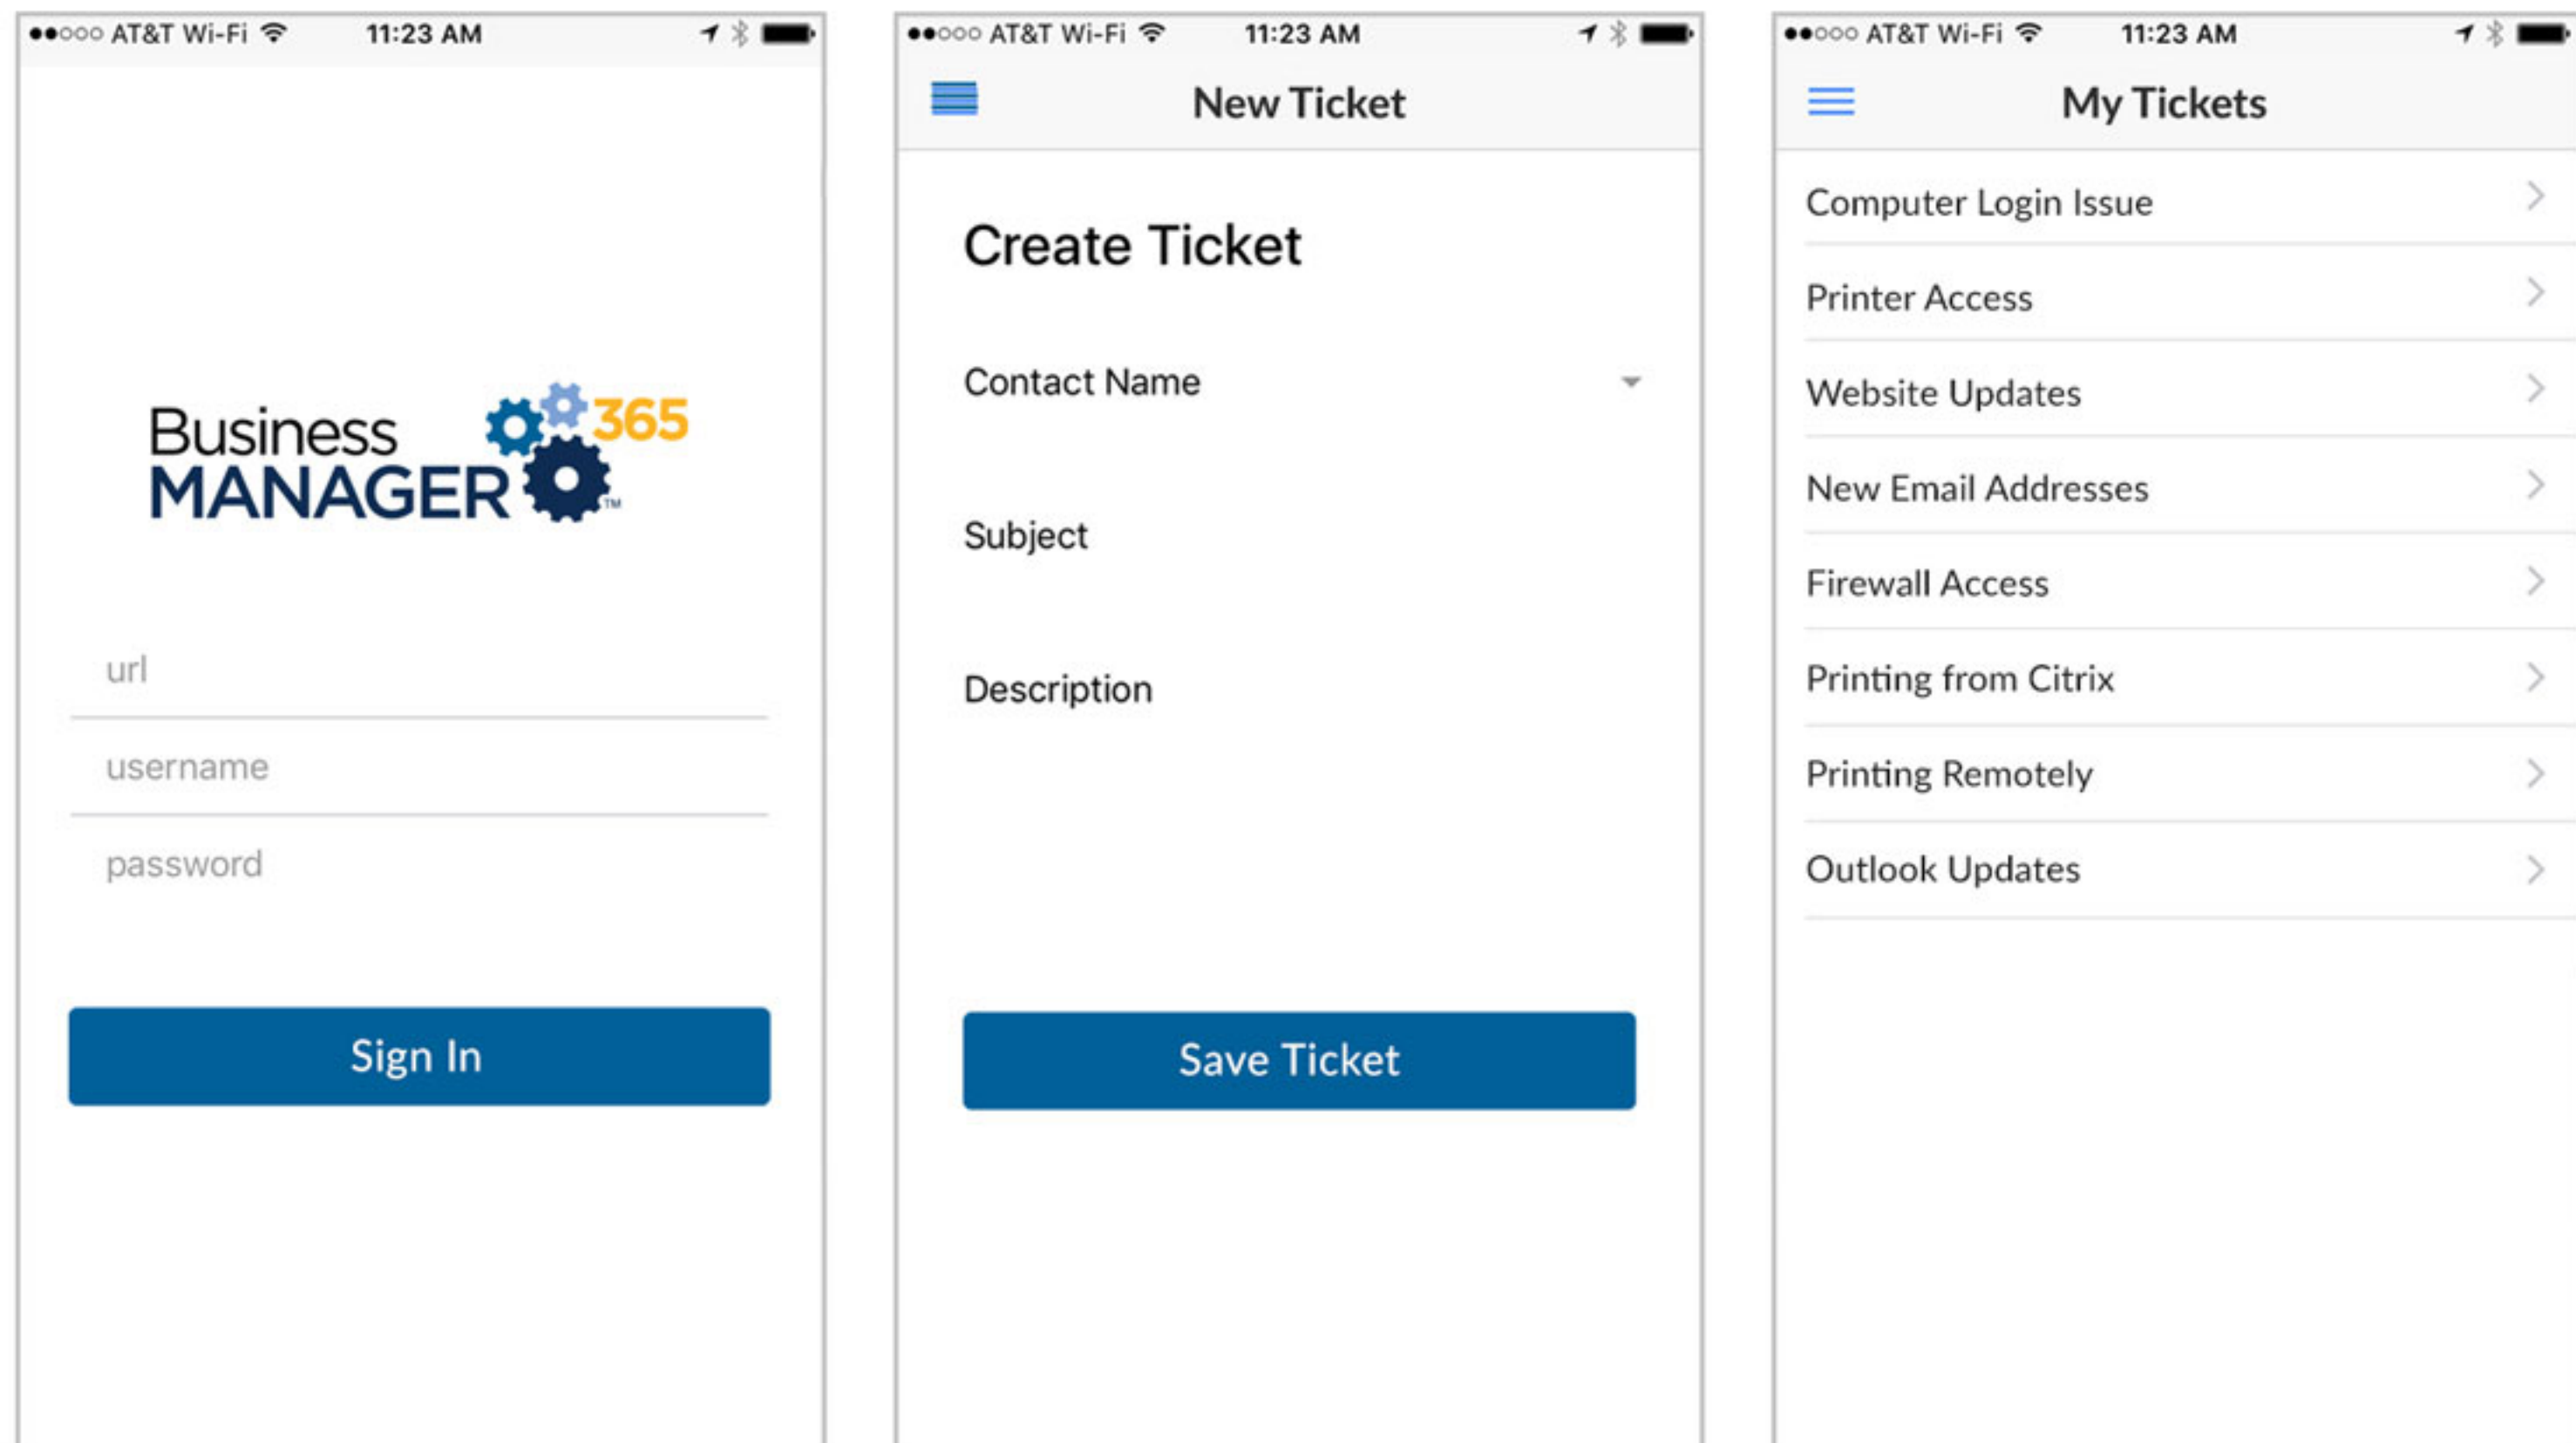

Liberty One Software understands the unique needs of service based businesses. With Business Manager 365, you can manage your projects, inventory, customers, schedules, and information with ease. Open service tickets and stay in constant communication. Gain powerful insights into your business through advanced business analytics and reporting.

## HOW CAN YOU MANAGE YOUR CUSTOMER INTERACTION?

Business Manager 365 provides an enormous advantage to you and your clients by improving communication and the overall customer experience. Business Manager 365 encourages a work process where everyone, including your customers, is working from the same live database, so information is available immediately. Your customers have the option to collaborate with you via the web portal or through the client-side mobile app.

MOBILE APP  
Available in the App Store

## THE POWER OF BARCODING YOUR INVENTORY

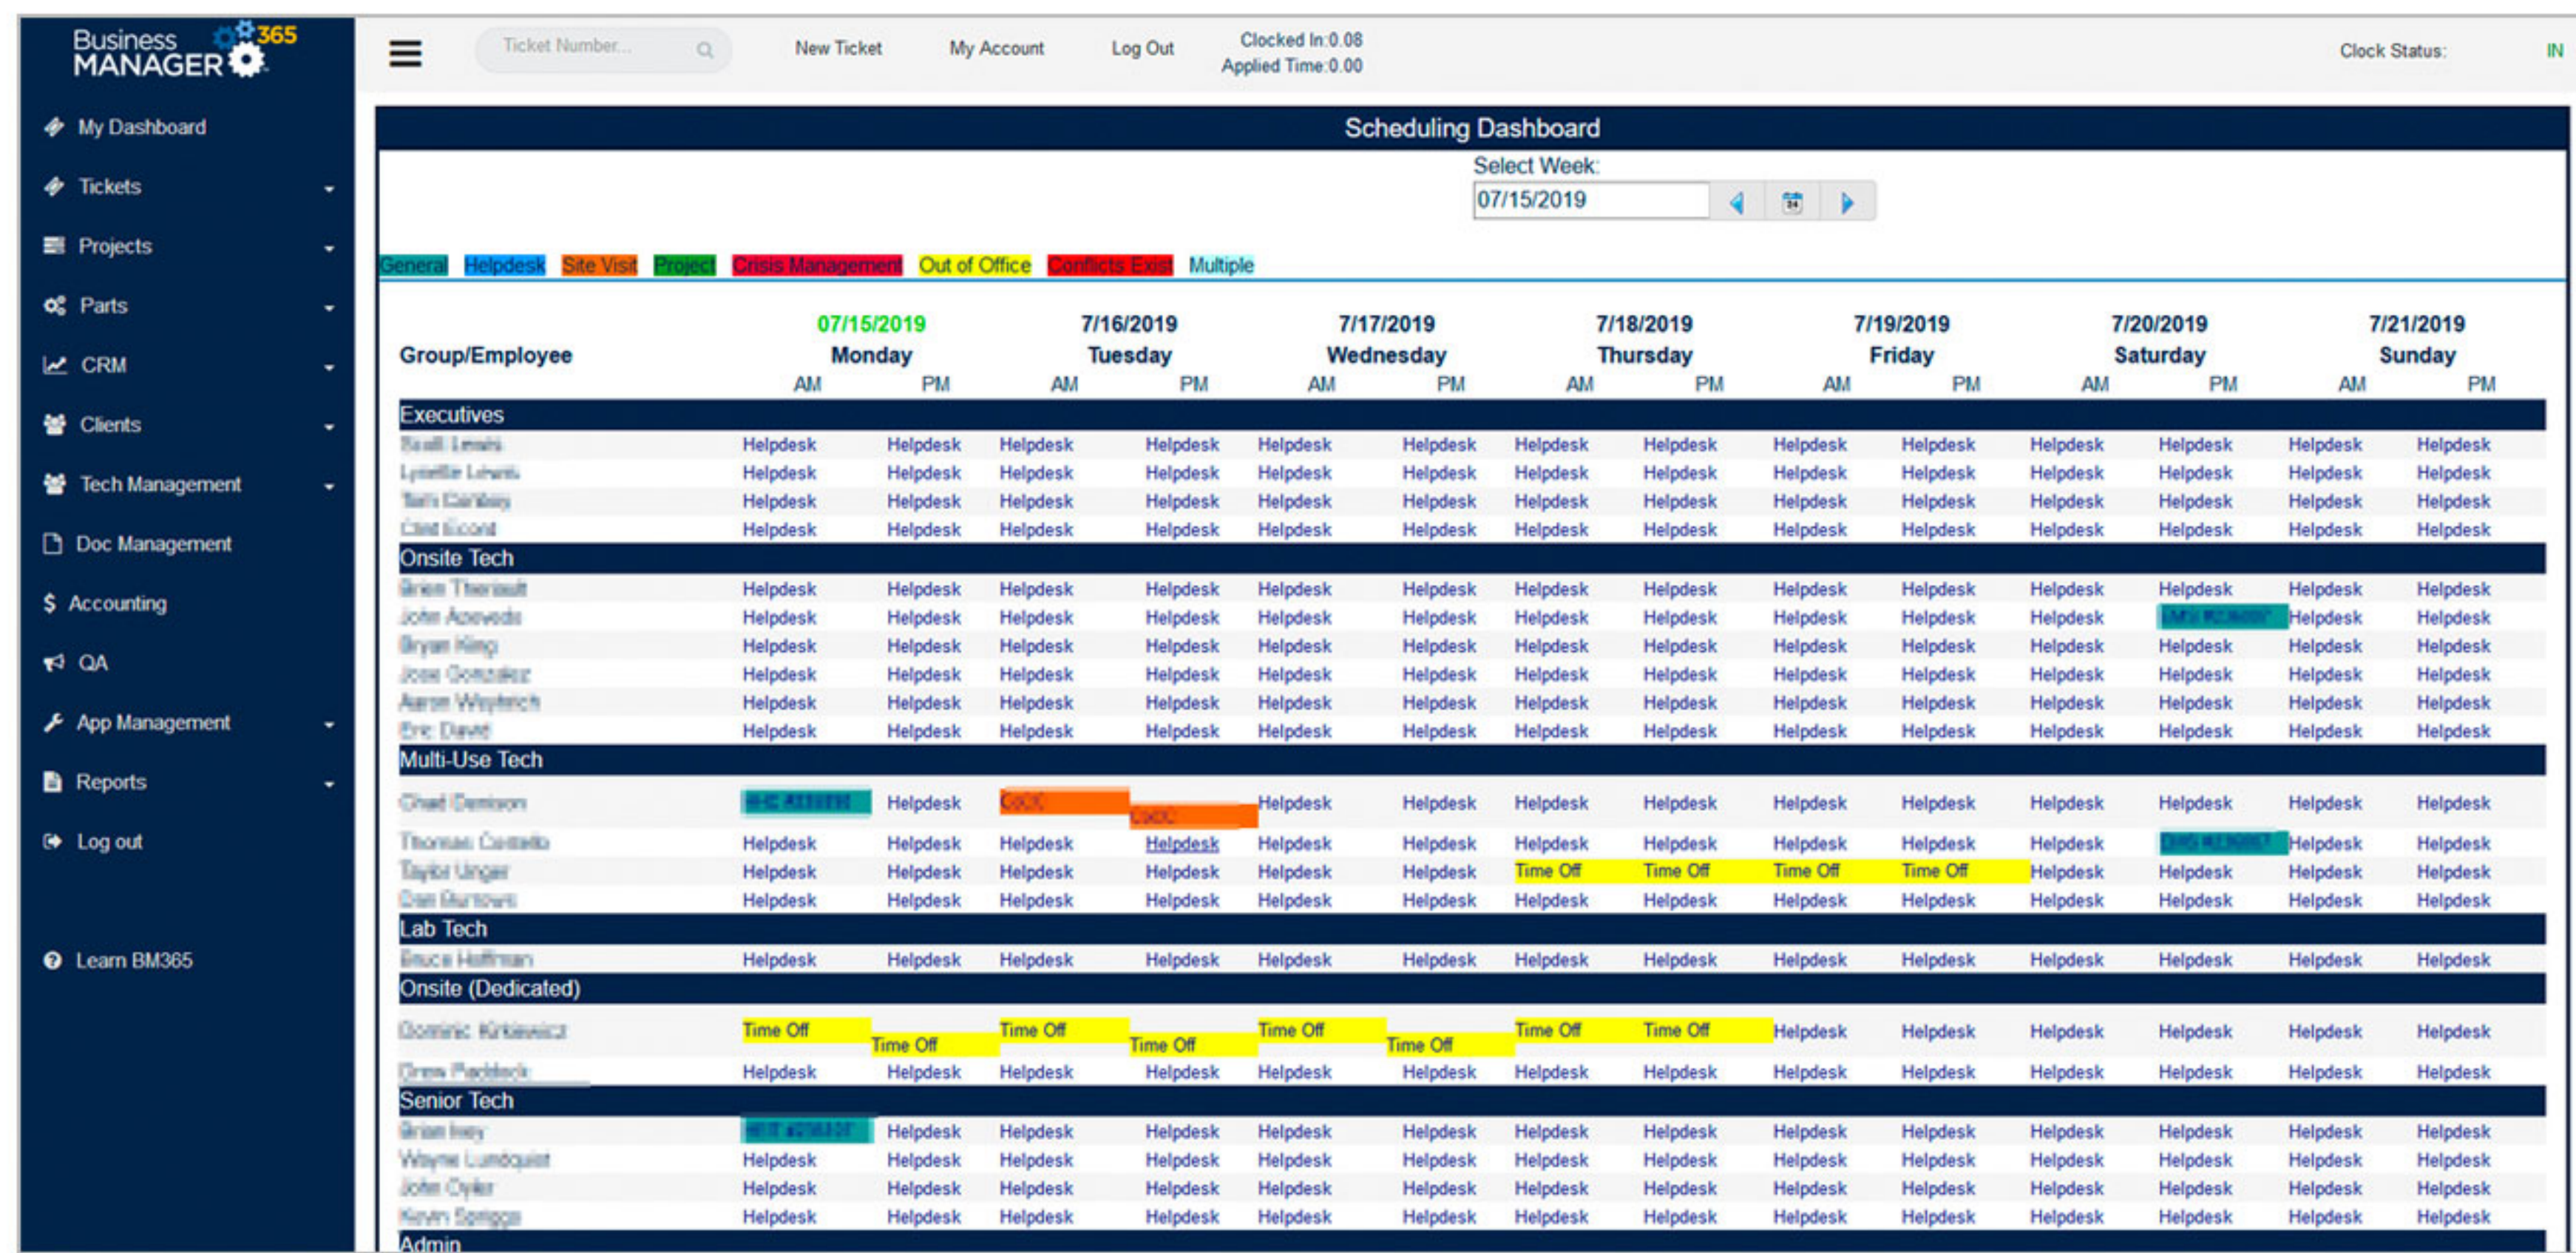

Business Manager 365 now uses the power of Bar Coding for improved Inventory Control, Equipment history, purchasing information, and Warranty information. The system works with virtually any bar code you are currently using. The Business Manager 365 bar coding system works on both sides of the system, the client side and the administrative side of the mobile apps. Your clients now can scan the bar code, open tickets, check locations, make adjustments for change management, and check the status of individual parts and equipment.

## MANAGE APPOINTMENTS WITH THE SCHEDULING DASHBOARD

The Scheduling Dashboard shows you a week of scheduling by employee. Track time off, Vacation, Committed Scheduled events, and drill down capability. The scheduling system performs conflict resolution, prevents over scheduling, double booking and provides a consistent overview of events going on in your business.

## ADVANCED REPORTING & BUSINESS ANALYTICS

Information and data can drive your business to new heights. Analyzing and using that data can tell you a story about your customers, your business, and the services you are providing, which can be critical to the continued long-term success of your business.
